CIS IT Tutor

Brigham Young University – Hawaii

September 2024 – Present

- Provided individualized tutoring and coaching in IT, CIS, and CS courses, helping more than 20 students per day at various levels of learning
- Reviewed class materials, offered study and test-taking strategies, and reinforced positive learning habits to motivate and build student confidence
- Assisted professors with grading and other course-related tasks to ensure smooth course operations

HR Technical Support

Brigham Young University – Hawaii

April 2025 – October 2025

- Leveraged IT expertise to perform a comprehensive analysis of information systems, particularly Workday, within the Human Resources department
- Executed configuration, testing, and modification of information systems, ensuring seamless functionality and optimal performance
- Developed and documented maintenance procedures, improving system stability and assisting efficient HR operations

Marketing Researcher/Planner Internship

BDigital Marketing Agency at Brigham Young University – Hawaii

September 2024 – December 2024

- Developed and executed IMC strategies and weekly creative briefs to enhance brand reach and maintain consistent messaging
- Worked with diverse teams to align content with campaign goals and ensure brand voice consistency
- Created engaging social media content using Canva to support Project Elect's online marketing efforts

HR Technical Support

Brigham Young University – Hawaii

June 2022 – August 2024

- Supported the Workday Divestiture Project by helping implement a new Workday tenant during the transition to single-campus systems
- Researched, organized, and built 5+ EIBs to efficiently transport critical HR data between the old and new tenants, ensuring data integrity and smooth migration
- Contributed to the successful and on-schedule go-live by proactively troubleshooting issues and optimizing workflows, helping the transition run smoothly with minimal disruption
