Experience/Employment

CIS IT Tutor
Brigham Young University – Hawaii
September 2024 – April 2026

- Provided individualized tutoring and coaching in IT, CIS, and CS courses, helping more than 20 students per day at various levels of learning
- Reviewed class materials, offered study and test-taking strategies, and reinforced positive learning habits to motivate and build student confidence
- Assisted professors with grading and other course-related tasks to ensure smooth course operations

Data Analyst
Polynesian Cultural Center
January 2026 – April 2026

- Spearheaded the design and implementation of a comprehensive Power BI dashboard, centralizing marketing data from multiple channels, enhancing decision-making for the PCC marketing team.
- Defined KPIs and collaborated with stakeholders to identify gaps and redundancies in marketing data tracking.
- Led the promo code analysis and proposed a full system reset, resulting in cleaner data and improved campaign tracking accuracy for future dashboard integration.

HR Technical Support
Brigham Young University – Hawaii
April 2025 – October 2025, June 2022 – August 2024

- Supported the Workday Divestiture Project by helping implement a new tenant during the transition to single-campus systems and ensuring data integrity
- Built 5+ EIBs to efficiently transfer critical HR data between tenants, troubleshooting issues, and optimizing workflows for a successful go-live
- Performed system analysis, configuration, testing, and developed maintenance procedures to improve functionality, stability, and HR operations

Marketing Researcher/Planner Internship
BDigital Marketing Agency at Brigham Young University – Hawaii
September 2024 – December 2024

- Developed and executed IMC strategies and weekly creative briefs to enhance brand reach and maintain consistent messaging
- Worked with diverse teams to align content with campaign goals and ensure brand voice consistency
- Created engaging social media content using Canva to support Project Elect's online marketing efforts
